CNCF is proud to host our third conference for Adolescent and Young Adult (ages 14-22) survivors of high risk neuroblastoma as part of our Parent & Caregiver Educational Conference. Our unique forum brings together adolescent and young adult survivors, parents, and medical and allied professionals experienced in dealing with the late effects of childhood cancer treatment to discuss medical, educational, and psycho-social issues.

Agenda:

Friday, August 9:

Karen Kinahan, DNP, APN, FNP-BC, STAR Program, Lurie Cancer Center

Transitioning responsibility for healthcare from parents to survivors and research update on survivor health issues.

Jill Burstein, M.A., CEP, JJB Educational Consulting

Preparing for life after high school — navigating college applications, disability services, and other post-secondary options.

Julie Blackburn, LCPC, NCC, ATR

Family building and reproductive concerns of female survivors. (Speaker for male survivors TBD)

Leah Morage, LCSW, Resources for Life After Cancer, Memorial Sloan-Kettering Cancer Center

Psycho-social issues for survivors.

Saturday, August 10:

Survivors-only outing: Lunch at Giordano's and Blue Man Group at the Briar Street Theatre

2018 Survivor outing to
Alcatraz Island, California
